BLACK PEARL

SIMPLY DARKEST LEGAL

HERE'S WHAT THEY SAY ABOUT BLACK PEARL

Black Pearl is the first Nanoparticle technology film in its class! Fade and corrosion free outlasting other conventional films including dyed and metalised films! Black Pearl is spectrally selective so it rejects glare and blocks heat while providing visible light and optimum clarity, and this new technology film won't interfere with your car's next generation innovation such as rear screen aerials, GPS or satellite radio. Black Pearl also gives you 99% UV block out, up to 63% glare rejection and comes with a nationwide warranty.

- Darkest legal tint
- A fusion of pure optical clarity, low reflection both inside and out
- Blocks harmful UV rays by up to 99%
- Dramatically reduces annoying glare
- Great match for privacy glass
- Available in a range of shades and VLT ratings
- Bold rich colour is certain to get attention
- High performance film that offers excellent heat rejection
- Backed by a manufacturer's limited warranty*
- Metal-free film will not interfere with keyless lock or GPS systems
